# ROUSING AMERICAN MEETING AT MERCUR

Attendance Is Flattering and the Speakers Are Well Received.

Special to The Tribune.

MERCUR, Oct. 24.-A largely-attended and enthasiastic American party rally was held at the opera house in this city this evening. The stage was artistically and appropriately decorated with flags and bunting and music was furnished by the Juvenile band of

furnished by the Juvenile band of Mercur.

The principal addresses were delivered by I. W. Wiley and A. J. Weber of Salt Lake. The speakers were given close attention and were frequently applanded. One of the interested listeners was Bishop Moss of the Mercur ward of the Mormon church.

Mr. Wiley discussed the interference in politics by the Mormon church leaders and demonstrated the injury that had thereby been wrought, not only to the state at large, but to the Mormon people as well. He also told the people of Mercur that this was the first time that they had had an opportunity to vote an American ticket, when their vote would count, and he urged them to do their duty.

A. J. Weber delivered one of his characteristic addresses, in which he went into the methods pursued by the leaders of the Mormon church in matters political. He also discussed the object and aims of the American party, and decinned that the success of the party

# FREIGHT CAR ROBBERS HAVE NOVEL METHOD

Scheme is Discovered at Ogden and Thefts Will be Stopped.

Special to The Tribune.

OGDEN, Oct. 24.—A novel method of robbing freight cars has just been brought to light in this city. Recently there has been considerable complaint of merchandise being stolen from cars. Most of the cars from which the goods had been taken are refrigerator cars, in which fruit from California and the West had been shipped east and returned with various kinds of merchandise. An examination by railroad detectives shows that the robbers have been in the habit of entering the rebeen in the habit of entering the re-frigerator department used to store ice to preserve fruit in transit. Armed with nippers, they cut the wire which separates the ice cell from the re-mainder of the car, and after plunder-ing around, take what they can convenently carry through the aperature

iently carry through the aperature above.

The seals to all of the cars thus robbed are found intact, and for some time it was a puzzle to the railroad officials to determine how the merchandise had been stolen. These expert car robbers are believed to work in pairs. While one stands guard at the entrance of the ice box entrance, the other lights a candle and deliberately goes through the freight in the car while the train is in motion, choosing what he likes from the assortment of freight found. The goods stolen are probably disposed of to "fences" in larger cities.

#### GAMBLERS WIN OUT IN ELECTION AT RENO

RENO, Nev., Oct. 24.—Reno demonstrated today that gambling has too astrong a hold to be driven out by a short fight, such as the Anti-Gambling league has waged, and that long and careful preparation will be necessary to kill the vice. The proposed ordinance to coust gambling from the city was defeated at a special election held here today by a vote of 1776 against 1210 for, a majority of 566. The business men generally seem satisfied over the outcome. The merchants fear that driving out the gambler means injury to business. This sentiment had much to do with defenting the ordinance. Another strong argument of the gambling fractentity was that throwing the games out of Reno would drive the gambler to another Nevada town, giving a rival municipality the revenue derived from licensing.
